SUBJECT: Concrete Placing Boom Training. CPCCLBM3001A

RW & E McCulloch (MSM) in conjunction with our RTO, AOTA (91463), provide training for the safe operation of concrete placing booms.

Pre-requisite: Participants must be over 18 years of age, be able to speak and understand English; understand technical concepts and provide 100 points of identification as per WorkSafe requirements.

Areas covered are:

1 Assess and secure equipment and work area,

1.1 Conduct routine checks.

1.2 Plan work.

1.1 Apply OHS requirements, policies and procedures.

1.2 Check controls and equipment.

1.3 .Set up boom.

2 Pump concrete

2.1 Prepare and prime boom.

2.2 Operate boom.

2.3 Deliver concrete through boom.

3 Set up and dismantle boom

3.1 Plan assembly/dismantling.

3.2 Shut down boom.

3.3 Dismantle boom.

Outcome

For those who undertake this course and successfully complete the assessment criteria, applicants can obtain a National high risk license for the operation of Concrete Placing Boom (PB).

Course Duration

3 days (plus 1/2 day assessment)

Cost

\$1300 per person - Includes assessment fee but does not include Licence processing fee payable at Service Tasmania.

All MSM training is on demand and undertaken at your premises with your equipment so the trainee is familiar with the plant they will be using and in a familiar environment.
